Consequence Tree Worksheet

Decision Situation Description

Write down whatever springs to your mind about your current decision situation and context.

Name:

Values and Considerations List

Create a list of statements (full sentences) that describe values, priorities, wants, needs, likes, dislikes, situations to avoid, constraints, mission statements and any other considerations for this decision.

Decision-Making Motivator

Describe what is motivating your decision-making activity. This could be a problem, situation, question or desired outcome.

“My decision motivator is...”

Goal Description

Based on your goal motivator, describe your goal(s). If you have multiple goals, rank them in order of priority.

Knowledge Bank

Record facts relevant to your situation, choices of action and consequences. Include value statements. Think about the objects and actions involved and collect facts related to these.

Knowledge Bank (cont.)

Record facts relevant to your situation, choices of action and consequences. Include value statements. Think about the objects and actions involved and collect facts related to these.

Choices of Action – Brainstorming

List five to ten different, independent, first steps you could take, starting from your current decision situation. Include both choices of action you want take and choices of action you wouldn't want to take. Note which actions you like and which ones you dislike. Note your favourite option.

Three First-Step Actions

List three first-step actions from your choices of action brainstorming step that you will explore in depth.

Name:

First-Step
Action 1

Name:

First-Step
Action 2

Name:

First-Step
Action 3

Consequence Scenarios

For each of your three choices of action, describe a positive consequence scenario and a negative consequence scenario. Give each scenario a distinct and memorable name.

First-Step Action 1

Positive
Consequence
Scenario (A)

Name:

Name:

Negative
Consequence
Scenario (B)

Consequence Scenarios

For each of your three choices of action, describe a positive consequence scenario and a negative consequence scenario. Give each scenario a distinct and memorable name.

First-Step Action 2

Positive
Consequence
Scenario (C)

Name:

Name:

Negative
Consequence
Scenario (D)

Consequence Scenarios

For each of your three choices of action, describe a positive consequence scenario and a negative consequence scenario. Give each scenario a distinct and memorable name.

First-Step Action 3

Positive
Consequence
Scenario (E)

Name:

Negative
Consequence
Scenario (F)

Consequence Scenario Likelihood

Using your knowledge base for inspiration, make a list of at least three strengthening facts and three weakening facts for your consequence scenarios. Calculate a strengthening, weakening and likelihood Ratings for the consequence scenario based on these lists. **Copy the resulting ratings into the Consequence Tree Worksheet.**

Name:

Consequence Scenario (A)

Likelihood Rating:

Strengthening
Facts

Strengthening Rating:

Weakening
Facts

Weakening Rating:

Consequence Scenario Likelihood

Using your knowledge base for inspiration, make a list of at least three strengthening facts and three weakening facts for your consequence scenarios. Calculate a strengthening, weakening and likelihood Ratings for the consequence scenario based on these lists. **Copy the resulting ratings into the Consequence Tree Worksheet.**
